				4
				5

**Weekly
Value**

Project for Saudi National Day

Students will prepare any model related to Saudi traditions and culture and submit this project on Monday 19th Sept.

QHS RESEARCH PROJECT POLICY
Academic Year 2022 – 2023

Studies have revealed that research helps restore and protect memory and enhances mathematics and problem-solving skills of students.

Research also prepares the minds – especially the young minds - for a better understanding of concepts and theories. A student's learning capacity is greatly improved, and they can perform better in comparison to who is reluctant to research.

Therefore, as a policy of the school management, on the weekly plan all students will receive information about their assigned project requirements and the date for submissions.

All Students are therefore requested to note that the project evaluations will be based on the following set of standards & criterion:

- Your project must present an innovative idea.
- It does not matter how simple it is; however, it should be original.
- Use of various aids (Internet, Encyclopedia, Reference Books, etc.) to collect your data is allowed; however, just copying your project from them is prohibited.
- You should know that your project contributes to your overall evaluation. As such you should put in your best to present a good project model.
- Please feel free to consult your subject teacher during all your project preparation stages.
- Note: Projects will be submitted to the subject teachers on Classera Platform.
- Real-Life Projects should be sent to teachers in the classroom.

Subject	Topic	Submission Date
English	Use the pictorial Story to create your own story, showing the sequence of incidents. Check the instruction file on Classera Platform.	10/11/2022
Science	Use the Simple Objects available at your home to create new science models like, dish-soap bubbles, a cell phone stand, a car using cardboards etc.	10/11/2022
Compter	Using the internet, find some pictures about the different types of computers and write the name of each type.	10/11/2022
Math	Use Simple Objects to Create a Math's Table - from 2 to 10. Use Math's to Compute Areas and Perimeters of Different types of Shapes, Make Models of Different Types of Angles, make different Polygons using Matchsticks	10/11/2022
French	Dessine et colorie les voyelles.	10/11/2022
Arabic	 <p>مشروع اللغة العربية والعلوم الإسلامية: تعد اللغة العربية من أقدم وأجمل لغات العالم وهي لغة القرآن الكريم. عبر عن حبك للغة العربية بجملة من إنشائك.</p>	10/11/2022
